

We are so grateful for your prayers for us during the time surrounding the wedding of our daughter Katie, to Regis Mora. We definitely felt the effects of those prayers!

As a bonus, the day could not have been more perfect—sunny, clear and slightly cool. We received close to 400 guests at the camp. We had so much excellent help, and everything went so smoothly, that there was very little stress involved! It was a relaxing, beautiful, fully enjoyable event.

Many unsaved guests attended, as expected. Our dear friend and long-time ministry partner, Denny Norris, led the ceremony, and he did an exceptional job of exalting Christ and offering the gospel in a clear, attractive light to all who were present.

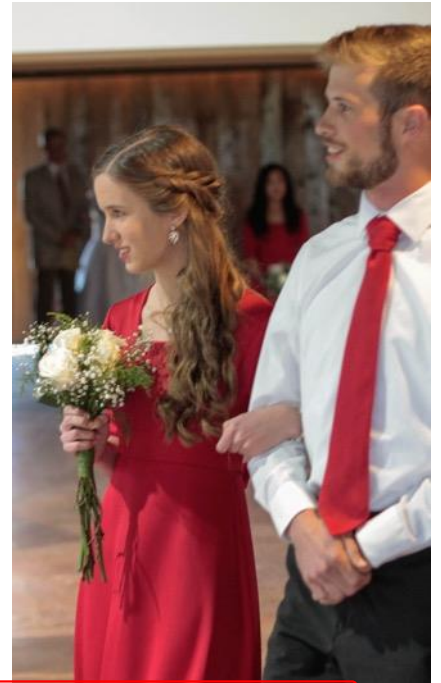

Again, we thank you with all our hearts for your interest in our lives and for your prayers through this life-changing event for us.

Reception

We are so grateful for Regis! We have watched him grow since he was a little boy and have been struck by his gentle spirit, maturity, and growth in Christ. We rejoice to add him to our family, and to watch as he and Katie begin their family together.

He is about to begin his final semester at a University in Morelia, to graduate as a Mechanical Engineer. His class load will be light this semester, with a part-time job requirement related to his area of study. Presently he has taken over the responsibility of maintaining and developing the facilities of Camp Berea. We have prayed long for the much-needed help in this area. The Lord has provided for the construction of great facilities, but of course the more facilities, the greater the need for up-keep and repair!

Regis was thrilled with this opportunity. He has a heart for ministry and loves the camp. He is skilled in most areas involving construction and repairs.

Of course, we are thrilled at the prospect of having them nearby, for the time being. They are setting up house for now in the fifth wheel from Ted's parents from Washington state.
